

COMPUTER DEPARTMENT

Program Outcomes (PO's)

1. To apply the knowledge of technical, science and Engineering.
2. Ability to analyze, define and solve computer engineering problem with appropriate solution.
3. Ability to design, implement and evaluate the program, data to meet the desired results.
4. Able to use the techniques, skills and modern tools necessary for engineering practice.
5. Ability to show the impact of engineering on society, safety and legal issues by incorporating in engineering practice.
6. Ability to understand issues related to social and environmental context for sustainable development of engineering solutions.
7. To demonstrate the professional and ethical responsibility.
8. Ability to function effectively as an individual, as a member or leader in diverse team.
9. To demonstrate effective communication skill of computer subjects in both oral and written form.
10. To demonstrate the need for and an ability to engage in lifelong learning.
